

Colorado Pediatric Emergency Care Coordinators (COPECC)

www.emscolorado.com/copecc

*Prehospital Pediatric Emergency Care Coordinator
Role Description*

ABOUT

EMS agencies should use this Pediatric Emergency Care Coordinator (PECC) role description to identify and develop the most appropriate individual(s) for the role.

PECC MODELS

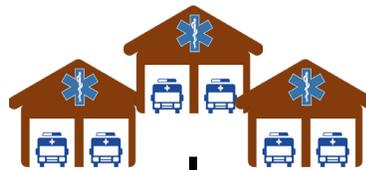

The following are acceptable models for EMS agencies wanting to implement the PECC role:

One agency has one individual serving as the PECC

One agency has a team of individuals who collectively assume PECC responsibilities

Multiple agencies in the same region share the same individual for their PECC

Multiple agencies share a team of individuals who collectively assume PECC responsibilities

PECC QUALIFICATIONS

The main requirement for someone serving in the PECC role is simply having some passion around improving pediatric emergency care. While having some “expertise” in pediatric care is always great, it is not a requirement for this role. The COPECC program recommends the following qualifications for PECCs:

1. May be any level EMS provider, RN, or PA/NP/DO/MD
2. Has a specific interest in enhancing delivery of pediatric emergency care
3. Maintains competency in pediatric emergency care (e.g., PALS, PEPP, PEARS, etc.)
4. Is committed to spending time on PECC responsibilities

Colorado Pediatric Emergency Care Coordinators (COPECC)

Role Description

PEDIATRIC EMERGENCY CARE COORDINATOR RESPONSIBILITIES

The activities taken on by a prehospital PECC are ultimately up to the individual(s) in that role. However, for those wanting more guidance, the COPECC program recommends that, at a minimum, prehospital PECCs assume the responsibilities listed below.

MINIMUM PECC RESPONSIBILITIES

Responsibility	Optional Resources
Ensure agency profile, including the PECC field and PECC contact info, is included and up to date in the state Emergency Medical and Trauma Services branch (EMTS) database	Instructions and access to EMTS organizational profiles
Promote pediatric-specific continuing education at your agency	<ul style="list-style-type: none"> EMSC calendar and library Rocky Mountain Hospital for Children and Children's Hospital/EMSC Mobile Sim Labs
Ensure the availability of pediatric-specific equipment and supplies, using the national consensus recommendations and the state minimum equipment list for guidance	<ul style="list-style-type: none"> National consensus guidelines on recommended equipment for ambulances State minimum equipment list
Educate fellow EMS providers on family-centered care	NAEMT and EMSC's tips for family-centered prehospital care
Conduct or assist with pediatric quality or process improvement initiatives	National EMS Quality Alliance pediatric performance measures: weigh in kilograms , administration of beta agonist for pediatric asthma , and pediatric respiratory assessment
